ANNOUNCEMENT

Prices named in this list are effective as of December 10th, 1934, and cancel all former prices.

TERMS.

To parties of known good standing, we allow our usual terms—2 percent discount for cash in 10 days from date of invoice, 1 percent 30 days, or net 60 days.

If yours is a new account with us, please send references with order (bank reference preferred,) and allow us time to get report on same.

Orders to be sent C. O. D. should be accompanied by 25 percent cash deposit.

PACKING, ETC.

Boxing and packing will be charged for at actual cost. A sufficient amount to cover this charge should be included in your remittance, and we will refund any excess when invoice is mailed to you.

Customers are to pay transportation charges from our station to destination.

Please be careful to specify how shipments are to be sent, and the place to which shipment is to go. These things will enable us to give you better service and it is our sincere wish to do this.

We usually ship same day order is received.

Your business will be appreciated and

COLLECTED STOCK**Supplementary List.**

The demand for native stock has been so heavy and inquiries so numerous for this class of stock, that we have decided to issue this list in connection with our regular price list. This is the first time we have issued a printed list of this class of stock, but it is no new item with us.

We have collectors and workmen with us who have spent a lifetime at this work, and it is our intention to give you just a little better than you usually get when you buy collected or woods grown plants. As a matter of fact, the quality standard on this stock has been raised until it is giving satisfactory results, and is a great help in securing stock that cannot be had in nursery grown stock except at unreasonable prices, and possibly not at any price.

To those who have bought collected stock from us: We appreciate your business and ask you to continue with us. To those who have not bought from us before: We will certainly give your business the best attention possible to see that you are satisfied, as we take the attitude that your satisfaction is our future business.

GRADING

Our grading will be liberal. You will get as good, or better, than you buy. We reserve the right to substitute a better grade, unless otherwise instructed, at no extra cost. Items listed as seedlings, divisions, or layer rooted are sold only as lining-out stock and more attention is given to the root system than to caliper or number of canes. Stock listed as selected is graded as near to Horticultural Standard grades as possible. The only noticeable difference is root system, which is not as heavy as transplanted material.

OUR WISH

That you may have a successful season, with good sound business, and send us at least part of your orders. We will show our appreciation by sending you the very best stock possible.
